

Goldenfields Water customers can now monitor their water consumption anytime, anywhere, and all for free!

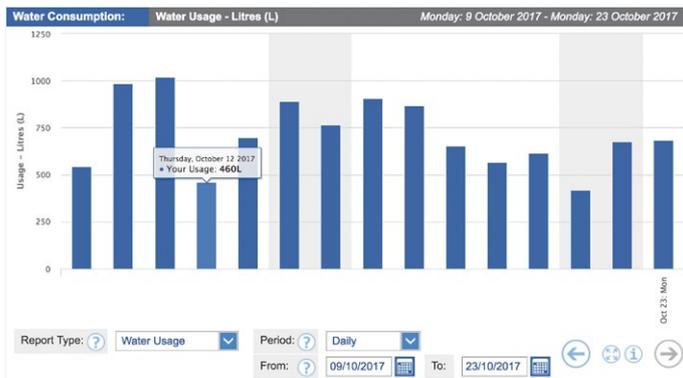

MyH2O is an online and easy to use service that gives you the tools to save water and money. Sign up to track your daily water usage and keep an eye on how much it's costing. You can also choose your own water consumption targets and set up alerts to warn you if these targets have been or are likely to be exceeded.

Customers can add any of their properties to their MyH2O profile and give others, including tenants and real estate agents, access to view water usage information.

View your daily water consumption

Compare your usage to the average and track how water wise you are. This graph is an example of high consumption — use MyH2O to find ways to reduce water use and save this vital resource.

Set your own targets and alerts

You can choose your own water consumption targets and set up email and SMS alerts to warn you if these individual targets have been or are likely to be exceeded. You can also check your property's consumption metrics to help identify possible leaks.

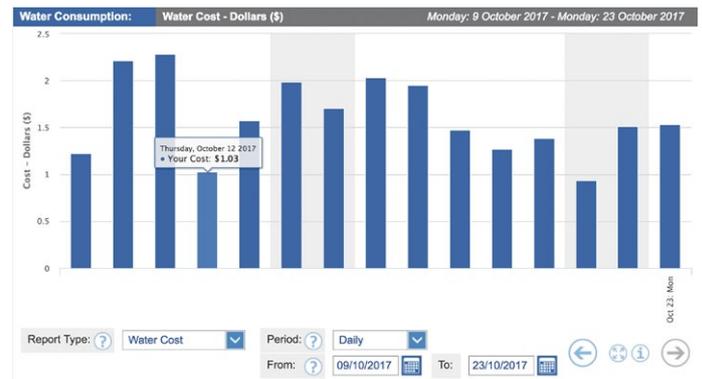

Sign up for free in three simple steps!

- 1 Visit www.myh20.gwcc.nsw.gov.au
- 2 Enter your property details.
- 3 Access your details and personalise your profile.

See how much it's costing you

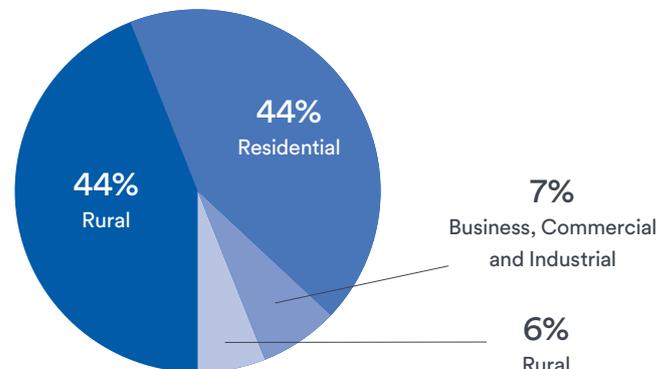

Compare your costs to the average and keep an eye on how much your daily use is costing. This graph is an example of high consumption — rather than waiting for your water bill to arrive, use My H2O now to find ways to reduce your bill.

Who are Goldenfields Water's customers?

Goldenfields Water has almost 11,000 properties connected directly to its drinking water supply network in Bland, Coolaman, Junee, Temora, and parts of Cootamundra-Gundagai and Narrandera.

Our different customer groups and their water use are shown in the graph. We also supply water in bulk to parts of Hilltops and other parts of Cootamundra-Gundagai with distribution handled by the local councils.
